April 24, 1978

QUOTES FROM THE LIBERTERREAN:

During 1977, official figures show the US automobile industry recalled more cars (10.4 million) than it sold (9.3 million).

The cost of smoking and alcohol abuse in the US has reached nearly \$60 billion a year, or about 25% of the total cost of all illnesses, according to health economists at the School of Public Health at the UCLA. An additional \$11.5 billion was lost (in 1976) in fires, motor accidents, and violent crime attributed to smoking or alcohol abuse. Each alcoholic costs the economy \$5,000 a year; each person who smokes too much, \$459.

Dead people have been known to vote in Chicago, especially if they vote Democratic. But now a dead man has won an election.

State Senator Norbert A. Kosinski won a Democratic primary election by a 5:1 margin over his opponent--11 days after he died at a campaign rally. His widow said the people had voted for "the little man".

Singer Pat Boone has publicly lashed out at the "low element" which has invaded the entertainment industry in the US.

"This is especially true in the music industry where some rock performers and shows are so hellish I would not consider them to be entertainment," Boone said.

Boone made his comments on entertainment and morality in the midst of his current 3 week concert tour of apartheid South Africa. --Zodiac News Service

"My country 'tis for me
Sweet land of license fee
Of thieves I sing

Land where the Indian died
Land that the slaver plied
From every nu clear pride
Let BOMBast ring

--Joffre Stewart

I've been asked by GLASC organizers to participate in a panel discussion on the topic: Game Publishing from an amateur/small company view. Sounds like fun, if it doesn't interfere with my play in the Diplomacy Tournament. I'll do it. I know I'll see some of you in Northridge over the 4th of July weekend.

John Leeder, 1211 5th St. NW, Calgary, Alberta, Canada T2M 3B6, publisher of Ruhne stone is conducting this year's "North American Zine and Gamemaster Poll".

To participate: 1) List all the north american zines you receive, rating each on a scale from 10 (supurb) to 1 (unspeakably bad). 2) List all the gamemasters of games in which you're currently playing, rating each on the same 10-1 scale.

You may use whatever criteria you wish to arrive at your rating. If we get lots of entries we should get an accurate overview of the tastes of the north american segment of the hobby.

I will tally the results at the end of June. Oh yes, please sign your ballot and the date of your most recent participation in the hobby (most will be "current").

Mail your ballots to John Leeder.

WAR BETWEEN THE STATES

No one will be able to see what's to happen in this game until Dave Lagerson or some other CSA player takes up the challenge to oppose Bob Spencer in this game. Delay.

C-1978 and L-1978 (all-lawyer)

The Spring, 1901 deadlines for these two games is Friday, May 5, 1978 at 1.00 pm, I always give the players in new games at least one month in order to conduct initial deplomacy. I counted from issue #94 to try to give you all two issues' deadlines for this purpose and promptly gave you only one issue for the deadline. Good luck.

ROME: What can one say when one is always busy making pizza, the demand is so great that not only do we have the French coming our way to try some of the good stuff; but we also now have the Austrians trying to see if they can study how it is done within Italy itself. It just goes to show you, don't be good at anything and then the world will let you live in peace. Perhaps we can give some of the stuff away to Turkey, or England, or Russia, or maybe Germany.... of course there is always Switzerland, they are always looking for good craftsmen!

About earthquakes, as far as modern geologists can tell the most powerful earthquake that occurred in this country in the past 2 centuries was centered at what is now New Madrid, Missouri, in 1811. So just as California can fall into the Pacific Ocean, St. Louis can fall into the Mississippi River! I'm staying in Illinois, thank you.

Due to the nearsightedness of my late secretary, a clerical oversight has occurred. Diplomatic lines are open to all barbarians wishing to express their contributions to the Greater East Asia Co-Prosperity Sphere. Of course the salutations to Ma Russia are still of primary importance, by no means is Japan tied down to its historical acclination towards war with the world. Then again, Japan is also free to decide to ravish the Pacific in 1940 and 1941 as well (technically WWII as we know it starts in 1942). So it

is important that I talk with the other great barbarian powers: Germany, Italy, Turkey, Spain, Poland, France, England, USA. Feel free to send aplombs to my new Secretary of War: Jim Frediani, Box 751, Calistoga, California 94515. I can say with a clear conscience that the British need not fear, Japan has no interests in the Panama Canal.

It was a misty August morning when Master Sergeant Wenzel was awakened by his driver after an all too short sleep. If it were not for the much needed maintenance on his STG IIIA he and his men would get no rest at a-l. Machines served their purpose well, but they were too fragile to replace men.

Since the High Command had forbidden him to fire his main gun for fear of harming i-nocent civilians, his only protedfion lay in speed, heavy armor and the poor communications system of the rebels. He had even heard rumors over the radio that the rebels had started firing on each other.

It would not be long and he and his men could have a long rest. First had come Sweden, then Belgium. Next they would visit the Netherlands and finally Denmark. After that they could return to Germ-ny. There would certainly be a commendation from Chancellor Charlie himself and maybe even a medal. Would a commission be too much to hope for? Others would have to worry about Luxembourg and Norway, he was looking forward to seeing his family before the 1940 campaign began.

Karl Gustav Mortensen, King of Sweden, today turned over the plans of the Swedish defense ministry to the German Chancellor Charlie. Nicknamed the "Snow King", chancellor Charlie turned these production schedules over to Minister Speer. The defection of Sweden is one of the gravest blows to the Allied war effort. Rumors flew in Stockholm that Poland might be persuaded to join the Axis cause! The defection of Poland would ruin the Big Three to a state of collapse (UK, France-Poland).
